SUMMARY

Final-year B.Tech CSE student (2027) and **Full Stack Developer** with hands-on experience across five internships and roles since 2025 in web development, machine learning, and IT support. **Expertise:** AI-integrated web applications with **React.js, Next.js, Node.js, Express.js, Flask, and REST APIs** on **MySQL, PostgreSQL, and MongoDB**; **machine learning and data analysis** in Python; and **Data Structures & Algorithms** (400+ problems solved). Seeking Software, Full Stack, Backend, Frontend, and Data roles.

EDUCATION

B.Tech in Computer Science and Engineering | Dr. A.P.J. Abdul Kalam Technical University (AKTU) *Sep 2023 – Jun 2027*
CGPA: **7.82 / 10**

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS3, Responsive Web Design
Backend: Node.js, Express.js, Flask, RESTful APIs, JWT Authentication, Session Management, API Integration
Databases: MySQL, PostgreSQL, MongoDB, SQLAlchemy (ORM), Database Design, CRUD Operations
Data Science & ML: Machine Learning, Data Analysis, Pandas, NumPy, Scikit-learn, Matplotlib, TensorFlow.js, Computer Vision
AI & APIs: OpenAI API, Prompt Engineering, GitHub GraphQL API, Third-Party API Integration
Tools & Deployment: Git, GitHub, Postman, VS Code, Vercel, Netlify, Render, Gunicorn, Clerk, Stream, Sentry, Inngest
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Machine Learning Intern | FlyRank AI *Remote | Jul 2026 – Present*
- Built and evaluated **machine learning** solutions using **Python** and data-science libraries.
- Conducted experiments and documented findings to support model and project decisions.

Campus Representative | GeeksforGeeks *Remote | Jun 2026 – Present*
- Organized technical events and coding activities, connecting students with learning and career opportunities.
- Ranked **44th out of 3,365** campus representatives in the July Campus Representative program.

IT Intern | Airports Authority of India (AAI) *On-site | Jun 2026 – Jul 2026*
- Participated in troubleshooting hardware, software, and network-related issues.
- Learned enterprise IT workflows, system administration practices, and technical support processes.
- Awarded an **"Excellent"** performance evaluation for contributions during the internship.

Web Development Intern | VaultofCodes *Remote | Oct 2025 – Nov 2025*
- Developed **8+ responsive web pages** using HTML, CSS, and JavaScript.
- Refactored UI components to improve page load performance by **~20%**.
- Optimized layouts for cross-browser compatibility.

Frontend Developer Intern | Edunet Foundation *Remote | Aug 2025 – Sep 2025*
- Translated Figma/UI mockups into fully functional **React** components.
- Built reusable UI components that reduced duplicate code by **30%**.
- Implemented responsive design using Flexbox and media queries.

PROJECTS

SyncSpace | React.js, Node.js, Express.js, MongoDB, Clerk, Stream, Tailwind CSS Live | GitHub
- Built a full-stack **team collaboration platform** supporting real-time messaging and video meetings.
- Integrated **Clerk** for secure authentication; implemented **Stream Chat and Stream Video SDK** for live communication.
- Developed the backend with Node.js, Express.js, and MongoDB; built reusable React components styled with Tailwind CSS.

Vision AI | Next.js, TensorFlow.js, MobileNet, COCO-SSD Live | GitHub
- Built a **computer vision platform** with **TensorFlow.js** (MobileNet, COCO-SSD) for real-time classification and detection.
- Enabled **live in-browser camera detection** via an interactive **Next.js** interface with optimized inference performance.

SocialNest | Flask, SQLAlchemy, MySQL, Bootstrap, Flask-Login, Python Live | GitHub
- Built a **full-stack social media platform** with secure user authentication and session management using **Flask-Login**.
- Designed database models and **CRUD operations** using SQLAlchemy and MySQL for users, posts, and social interactions.
- Built a responsive UI with Bootstrap and Jinja2; configured environments with python-dotenv and deployed with Gunicorn.

ACHIEVEMENTS

- Solved **400+ problems** on LeetCode, GeeksforGeeks, HackerRank, and CodeChef; **top 9.33%** of LeetCode users globally.
- Secured **98.52 percentile** in Naukri Campus Young Turks 2025, placing in the **top 2%** of performers.

CERTIFICATIONS

Web Development Fundamentals (IBM) | **Gemini Certified Student** (Google) | **Data Science** (Oracle) | **Python** (GeeksforGeeks)
